

## eBook Information

# Microwave-Assisted Synthesis

Innovations and Applications in Materials and Chemistry

**Eds. Inamuddin, Tariq Altalhi, Arwa Alrooqi,  
Maha Khan**

Monograph / PDF eBook DRM Free

The book focuses on developments in the microwave-assisted preparation of organic and inorganic compounds, advanced composite materials, polymers, and nanostructures.

*Keyword:* Microwave-Assisted Synthesis, Bioactive Heterocycles, Medicinal Chemistry, Synthesis of Polypyrrole, Environmental Pollutant Adsorption, Zeolite Synthesis, Synthesis of Ionic Liquids, Radiopharmaceuticals, Targeted Drug Delivery, Pyrolysis of Biomass, Photocatalysts for Hydrogen Production

**ISBN 13:** 978-1-64490-403-9, **Publication Date:** 2026 (4/25/2026)

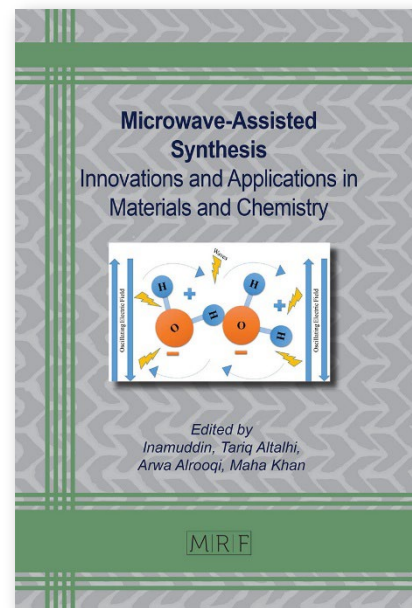

**Direct URL:** <https://mrforum.com/product/microwave-assisted-synthesis>  
476 pages, PDF eBook DRM Free, USD 125.00

*Materials Research Foundations Vol. 189* / **BISAC:** TEC021000 / **BIC/Thema:** TGM

**Imprint:** Materials Research Forum LLC, *Publisher's sales rights are Worldwide*

Summary:

The book focuses on developments in the microwave-assisted preparation of organic and inorganic compounds, advanced composite materials, polymers, and nanostructures.

## Print Book Information

# Microwave-Assisted Synthesis

Innovations and Applications in Materials and Chemistry

**Eds. Inamuddin, Tariq Altalhi, Arwa Alrooqi,  
Maha Khan**

Monograph / color print, paperback

The book focuses on developments in the microwave-assisted preparation of organic and inorganic compounds, advanced composite materials, polymers, and nanostructures.

*Keyword:* Microwave-Assisted Synthesis, Bioactive Heterocycles, Medicinal Chemistry, Synthesis of Polypyrrole, Environmental Pollutant Adsorption, Zeolite Synthesis, Synthesis of Ionic Liquids, Radiopharmaceuticals, Targeted Drug Delivery, Pyrolysis of Biomass, Photocatalysts for Hydrogen Production

**ISBN 13:** 978-1-64490-402-2, **Publication Date:** 2026 (4/25/2026)

**Direct URL:** <https://mrforum.com/product/microwave-assisted-synthesis>  
476 pages, color print, paperback, USD 125.00

*Materials Research Foundations Vol. 189* / **BISAC:** TEC021000 / **BIC/Thema:** TGM

**Imprint:** Materials Research Forum LLC, *Publisher's sales rights are Worldwide*

Summary:

The book focuses on developments in the microwave-assisted preparation of organic and inorganic compounds, advanced composite materials, polymers, and nanostructures.
